# Lenny Yang

## DevOps Engineer

25339 Los Arqueros Dr.  
Valencia, CA 91381  
(661) 714-9425  
lennyiswise@gmail.com

### SKILLS

- Proficient Programming Languages: Java, Javascript, C++, Python, PHP
- Tools: Git, Travis-CI, Terraform, Jira, Docker, Kubernetes
- Frameworks Utilized: Django, Laravel, Gatsby, ReactNative, React
- Proficient In Utilizing Cloud Based Solutions: Amazon Web Services, Azure

### EXPERIENCE

#### **Vlan24 Inc., Los Angeles** - *Network Support*

FEB 2016 - PRESENT

- Handled computer network hardware (Cisco, Huawei) and troubleshooted them during customers downtime/maintenance (Switches, Servers, Routers, Cables, WireShark)

#### **KW International Inc., Carson** - *Full Stack Web Developer*

JUL 2017 - NOV 2019

- Created multiple cloud based solutions utilizing Amazon Web Services:
  - Created a Business Support System Web Application using Laravel (PHP, Javascript Stack) that is hosted to an EC2 server, utilizing an RDS MySQL server.
  - Created many android mobile apps that use API Gateway to call functions from the user actions on the mobile app - reducing infrastructure bloat.

### EDUCATION

#### **California State Polytechnic University, Pomona** - *BS, Computer Science*

OCT 2013 - APR 2018

Developed a navigation app on Android using Android studio that helps touring the Campus with augmented reality with the College Software Engineering Team, March 2017
